Creative Seeds brings nature programming to you!

We bring a variety of activities including...

loose parts

nature art projects

messy play

sensory stations

Showcasing a variety of ways to get outside and get playful.

Activities are decided based on the season, children's interests and abilities, and educators' goals for the program.

Join Creative Seeds as we explore the intersection of play, nature, and community

**Mud Kitchen
Mania!**

Loose Parts Pop Up!

Process Art Party!

Each session begins with a moment of connection, where children gather to reflect on previous experiences, notice seasonal changes, and share a quick check-in, then the remainder of the time is spent embracing outdoor play.

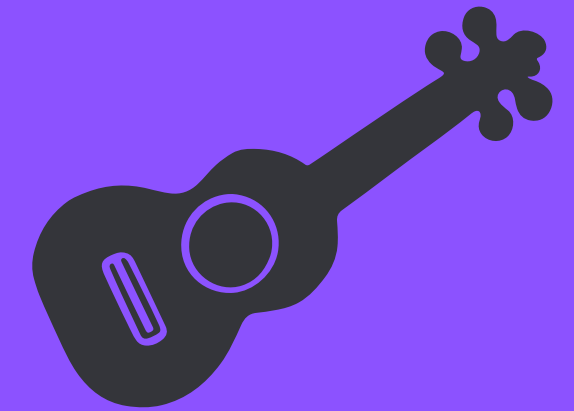

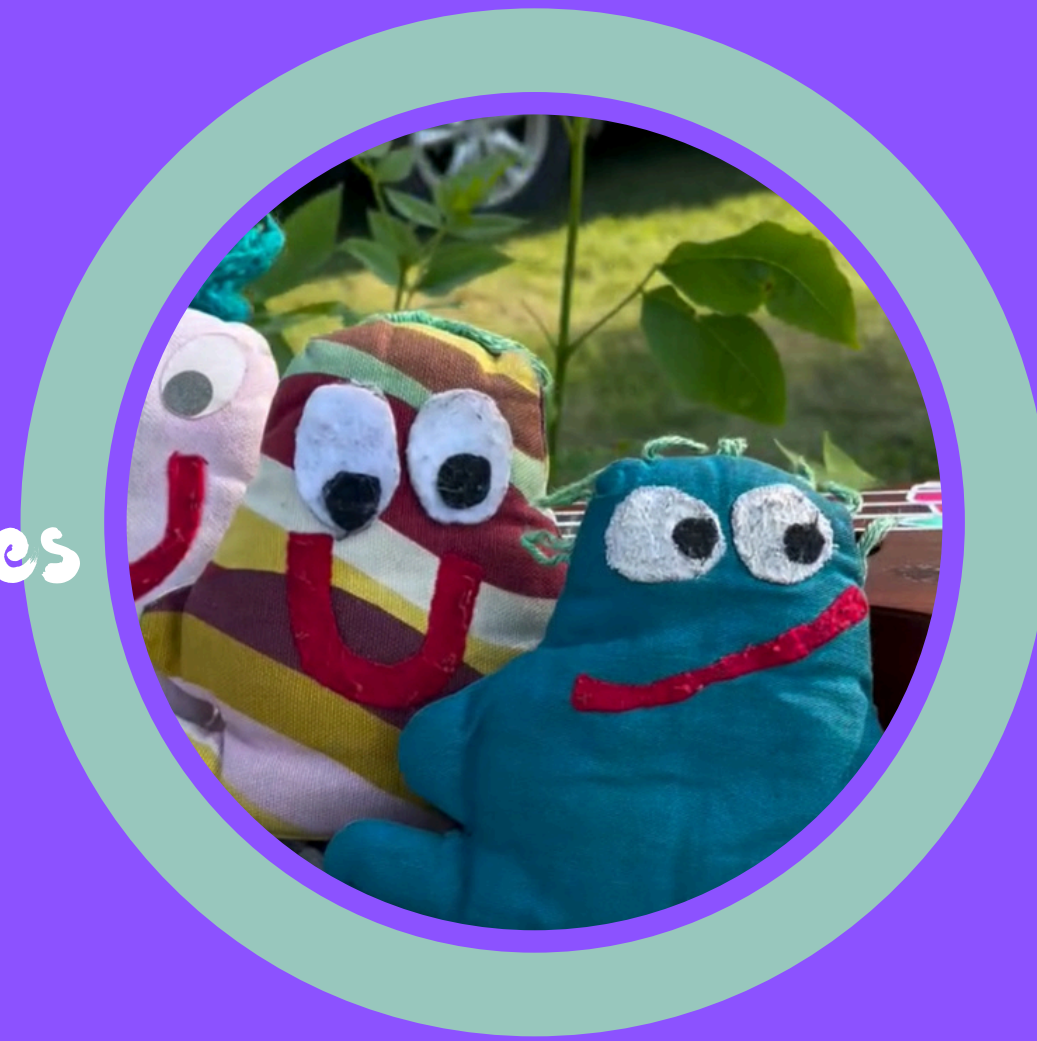

**Our daycare programs take place in whatever location is most convenient for you!
We bring our mobile nature classroom to your facility, a park, or natural space near you.**

Creative Seeds is an all weather program. We operate rain or shine and believe that getting kids outside in a variety of weather is important
